

**Airborne
Engines** Ltd

Established in 1991, Airborne Engines is a Transport Canada Approved Repair and Overhaul facility located in Delta, British Columbia, Canada.

Since 2013 Airborne Engines has been a valued member of the Rolls-Royce FIRST Network as an Authorized Maintenance, Repair and Overhaul Center (AMROC). Airborne Engines is also a member of the European Safety Agency (EASA).

As the longest standing Honeywell Aerospace Authorized Service Center we have worked diligently to earn world-wide recognition of our engine Maintenance, Repair and Overhaul (MRO) expertise.

For all Products inducted prior to July 31, 2020, Airborne is pleased to offer our

2020 SUMMER WORKS VALUE PROGRAM
